## **BlastGard International Enters Into A Supply Agreement Expected to Generate \$1.8 to \$2.4 Million per Year For Insensitive Munitions Product Packaging**

September 22, 2008 -- Tampa, FL -- BlastGard International, Inc. (OTCBB: BLGA) today announced an agreement with U. S. Explosive Storage to provide them with BlastWrap for insensitive munitions packaging of ammunition storage, ordnance storage, pyrotechnics storage, and other explosive materials storage, utilized, among other things, for military, governmental, and commercial use.

“This is a significant development” stated James F. Gordon, Chairman of BlastGard International, Inc. “BlastGard and U.S. Explosive are joining forces to create storage and transportation boxes that will prevent sympathetic detonation through BlastWrap’s unique proprietary technology that will quench the fireball and mitigate the effects of an explosion thereby significantly reducing the damage to people and assets from such explosions. Additionally all magazines and storage containers will have **Radio Frequency Shield** protection (RFP), which will prevent the flow of [radio](#) controlled detonation systems. We will be installing BlastWrap inside storage boxes and inside the magazines. U.S. Explosives is forecasting sales of \$5-6 million in year one and approximately \$8 million in year two. The BlastWrap component in the new product line represents approximately \$1.8 million in year one and 2.4 million in year two with ever increasing sales on a year over year basis.”

### **About U.S. Explosive Storage**
